The Mystara Magazine

FRIENDS, allies AND ENEMIES

In this new issue of Threshold magazine we'll meet an interesting gallery of characters who could become precious allies or terrible enemies in your adventures across Mystara.

First meet the Knights of Karameikos: they should be on the 'good' side, but maybe not so much if you are a Traladaran hero. Then you can try to create as many characters and adventures as you like with the Mystara Generators of People, Stories and Everything. You can go search for allies among the Darokin Actor Troupes, but you'll probably not find many of them among the Magian Fire Worshipper of Nithia and their dreadful Master, Rahotep the Lich! It will probably be even harder in the lands of Returned Blackmoor, among the pirates of the Savage Tides, or in the company of Deadly Deceivers! Last option, try your luck in the Stronghold District, if you can survive the hideout of the Radu in Specularum!

All this can be found only in the latest issue of our favorite magazine!
